

# Local Action Projects

## 1. ECOLOGICAL BEACH in Quartu SE coastline

To raise awareness about an integrated/beneficial management model for posidonia deposits, called ECOLOGICAL BEACH. The model promotes the preservation of posidonia beach casts on site, with a balanced coexistence of natural and anthropic elements. The model fosters the several important ecosystem services of the beach casts and contributes to coastal preservation.

Effectiveness of the “Ecological Beach” Model: Beneficial Management of Posidonia Beach Casts and Banquette

## 2. “Everyone can act” campaign

Everyone can play a role in preserving posidonia banquettes:

- Place your towel on Posidonia banquettes and I remember to post a picture of your action on social media.
- Artwork inspired by Posidonia (local artists events)
- Awareness raising and education events with e-learning materials

- Get sponsored by beach concessionaire, kayak/boat/Kite surf/windsurf rental owner, a tour operator, a tourist office.
